

## Quincy City Council Meeting

August 23, 2009

Comments from: Jay Bartlett, CEO Prairie Power, Inc 2103 S. Maine Jacksonville Illinois.

Prairie Power is a nonprofit electrical generation and transmission cooperative serving ten rural cooperatives across central Illinois.

Summary: Mr. Bartlett stated that Quincy has a unique opportunity to generate power with no fuel, not dependant on the wind and has the ability to deliver energy at different times into the market place. Prairie Power is interested in this if Quincy continues to develop the hydro power project. The hydro power project is a large investment that will pay past most of all our lifetimes, good for the environment and our economy. Mr. Bartlett lend his support for the project.
