

CITY OF QUINCY STREET OPENING/ROW EXCAVATION PERMIT

Date:

In accordance with the application made by the applicant, permission is hereby granted as asked for, to make an opening in a street of the city of Quincy or to perform other work on the public ways, the time and place and for the purposes set forth in the application and made a part hereof.

This permission is granted upon the express condition that in performing such work or making said opening and back-filling the same and in doing the work, the provisions of the ordinances of the city of Quincy, Illinois, and resolutions of the City Council, shall in all respects be strictly complied with.

This permission is granted and accepted upon the express condition and agreement that the person or corporation to whom this permit is issued shall place and maintain warning lights at night and warning signs by day, and use due care to avoid and prevent accidents and damages to persons and property and shall at his, her, or its own cost and expenses save and keep harmless the city of Quincy from all liability, loss, damage, cost of attorney's fees arising in any manner directly or indirectly out of, or as a result of, or in consequence of the making of any opening, and be relieved from liability in such behalf for anything done or omitted under, or in pursuance of, or pertaining to the work contemplated by this permit until twenty (20) working days after notifying the Public Engineer of completing of work performed pursuant hereto by the return of the permit to him or until such earlier time that the City resurfaces such opening in the public way if the nature of the work for which this permit is granted requires resurfacing. The applicant shall at all times conduct the work in such a manner as to minimize hazards to vehicles and pedestrian traffic. All signs, barricades, flagmen, etc. required for traffic control shall be placed and maintained in accordance with guidelines in the "Manual on Uniform Traffic Control Devices."
