

Aeronautics Committee - Meeting Minutes

7-1-2026 4:00 PM

City of Quincy Council Chambers

Members Present: Ald. Dave Bauer, Ald. Greg Fletcher, Ald. Eric Entrup, Orville Jones, Ron Frillman, Jerry Dreier.

Others Present: Airport Director Bill Lantz, Director of Operations Dan Brink, Airport Admin. Asst. Chris Walsh, Project Manager Steve Bange, Atty Ryan Schnack.

Public Comments: None

Minutes approval: A motion was made by Ron Frillman to approve the June 2026 minutes. The motion was seconded by Jerry Dreier. The motion carried.

Mayors' report: None

Engineering Report: None

Directors Report:

1. The airline boarded 830 for the month of June.
2. Awaiting to receive the paperwork for the Tuskegee Airmen event from the FAA.
3. Awaiting Hi-lite to start the crack seal and painting. I will be filing for an extension with the FAA for this action item in order to maintain compliance.
4. The boat, skid unit and truck 5A sold and are gone from the airport.
5. MALSAR M8 site has been completed per change order. State still is arguing with CMT. In addition, the state is dragging their feet on the completion of Phase 3 and 4. Scheduling a meeting next week with CMT and Mayor Moore to work toward a solution.
6. Actively training Daniel "Trey" Zenner our new hire.

7. Architechnics will be sending me a price to spec a new restaurant hood system. Should have numbers for our next meeting.
8. Security upgrades are near completion.
9. Close to completing grant UIN 5268. (Broom/ Blower)
10. We will be applying for a new AFT grant soon.
11. I would like to introduce Gianna Schreck, our Summer 2026 Airport Intern. She will be assisting us in the office while learning vital information that she can apply toward her degree in aviation.

New Business:

- Update on the restaurant hood was provided during the Directors report. There was a discussion to clear up some confusion from the last meeting regarding the airport restaurant. Some members believed we were not going to seek out the cost of a new hood system. Others were under the impression that we were not going to check into that cost. It was decided to see what the cost would be from Architechnics for the cost of a new hood, before proceeding with any additional plans. There is no cost to have them quote the cost of a new system. The discussion was tabled for 1 month in order to obtain the cost. The motion to table was made by Ron Frillman and seconded by Jerry Dreier. The motion passed.
- Request authorization to allow the airport to enter into a contract with XXXXX Disposal service for 2 trash dumpsters at the airport. Cost of the contract would be \$XXX per month. There was a motion to remove this item for 1 month so we can finish obtaining the quotes for service. The request to table this for 1 month was made by Ron Frillman and seconded by Orville Jones. The motion passed.
- Request authorization to all the airport to enter into a contract with XXXX for liability insurance for the airport. The current airport liability insurance expires at the end of July. The airport director noted that he has not yet received the quote from the insurance broker, so he is requesting authorization to send this matter directly to City Council once the information is received since the committee will not meet again before it comes due. The motion was made by Orville Jones and seconded by Alderman Entrup. The motion passed.

- Requesting authorization to add Mike Curtis to the T-hangar waiting list. The motion was made by Ald. Entrup and seconded by Orville Jones. The motion passed.

Late additions: None

A motion made to adjourn was made by Ald. Entrup and seconded by Orville Jones. The motion carried.

- Meeting adjourned at 4:27pm.
